# SUBJECT INDEX FOR VOLUME 10

- Abrasion, corneal, tarsorrhaphy benefits studied, 478
- Acanthamoeba castellanii*
  - and corneal epithelial penetration, 291
  - and keratitis, 91
  - trophozoite attachment of, 299
- Accutane, *See* Isotretinoin
- Acinetobacter* sp., and blepharitis, 50
- Acquired immunodeficiency syndrome, *See* AIDS
- Actin, distribution during wound healing, 110
- AIDS
  - and cytomegalovirus retinitis, 511
  - and keratoconjunctivitis, 536
  - and Stevens-Johnson syndrome, 536
  - and toxic epidermal necrolysis, 536
- Alkali injury
  - ascorbate treatment of, 100
  - citrate treatment of, 100
  - sorption studies, 54
  - and ulceration of cornea, 100
  - and wound-specific complementary DNA, 322
- Alkali sorption
  - by collagen, 54
  - by corneal tissues, 54
- Amphotericin B
  - pharmacokinetics, 411
  - toxicity, 411
- Anesthesia, retrobulbar, effects on cornea, 261
- Anesthetic abuse [erratum], 92
- Antibodies
  - autoantibodies, in Sjogren's syndrome, 207
  - monoclonal, in epikeratophakia, 105
- Aphakia, in patients with diabetes, 156
- Aprotinin versus tobramycin for *Pseudomonas aeruginosa*, 63
- Arthritis
  - rheumatoid, and peripheral ulcerative keratitis, 312
  - and Sjogren's syndrome, 207
- Ascorbate, in treatment for alkali injury, 100
- Astigmatism
  - incidence, 38
  - relaxing incisions, 38, 305
  - vector-corrected, 305
- Atropine, and Urrets-Zavalía syndrome, 372
- Autoantibodies, *See* Antibodies
- Autoimmune disease, *See* AIDS; Arthritis; Sjogren's syndrome
- Azathioprine, and cicatricial pemphigoid, 185
- Biometry, microcomputer-aided, 330
- Biopsy, of salivary gland for Sjogren's syndrome, 203
- Blepharitis
  - and *Acinetobacter* sp., 50
  - and *Corynebacterium* sp., 50
  - isotretinoin-induced, 286
  - and meibomian gland function, 277
  - and *Propionibacterium acnes*, 50
  - and *Staphylococcus epidermidis*, 50
  - and tear osmolarity, 277, 286
- Buccal mucosa, impression cytology of for Sjogren's syndrome, 203
- Candida parapsilosis*, and corneal ulcers, 21
- Carcinoma
  - melanoma of the iris and band keratopathy, 67
  - neuroma, and multiple endocrine neoplasia, 454
  - VX2 adenocarcinoma, and tumor necrosis factor, 131
- Caruncle, lacrimal, oncocytoma of, 175
- Cataract surgery, with intraocular lens implantation, 539
- Caterpillar hair-induced keratitis, 317
- Cefazolin
  - and *Corynebacterium striatus* keratitis, 81
  - and *Streptococcus pneumoniae*, 341
- Cell adhesion, of stromal fibroblasts after injury, 110
- Cell cultures
  - of corneal endothelial cells, 136
- Cell migration, of stromal fibroblasts after injury, 110
- Chemotherapy, for cicatricial pemphigoid, 185
- Cicatricial pemphigoid
  - and azathioprine therapy, 185
  - and cyclophosphamide therapy, 185
  - and diaminodiphenylsulfone therapy, 185
- Ciliary sulcus, anatomical dimensions and intraocular lens placement, 244
- Ciprofloxacin, and *Pseudomonas aeruginosa*, 25

- Citrate, in treatment for alkali injury, 100
- Cockayne's syndrome, and corneal perforation, 79
- Collagen  
   intracanalicular implants, effects on sodium  
     fluorescein absorption, 516  
   keratoprosthesis, 466  
   shields, and perforated corneal ulcers [Letter], 460  
   sorption of alkalis, 54
- Computer  
   in biometry, 330  
   in rotational autokeratoplasty, 369
- Conjunctiva  
   autograft transplantation, 196  
   chemotherapy, side effects on, 185  
   impression cytology of for Sjogren's syndrome, 203  
   pleating, and keratoconjunctivitis sicca, 367  
   subconjunctival injection of amphotericin B, toxic effects, 411
- Conjunctivitis  
   allergic  
     eosinophils detected by brush cytology, 525  
     mast cells detected by brush cytology, 525  
   vernal  
     eosinophils detected by brush cytology, 525  
     mast cells detected by brush cytology, 525
- Consanguinity and corneal dystrophy, 13
- Contact lens  
   extended-wear  
     and *Pseudomonas aeruginosa*, 25, 63  
     and *Staphylococcus aureus*, 408  
   hard  
     and pleomorphism, 395  
     and polymegethism, 395  
   neovascularization caused by, treated with  
     oxygenation, 358  
   silicone rubber lenses and corneal edema, 123  
   and superficial corneal epithelial striations, 507
- Cornea [Editorial], 1
- Cornea sorption of alkalis, 54
- Cornea storage  
   endothelial permeability studies, 44  
   long-term and risk of endophthalmitis, 217
- Corneal blood staining, 445
- Corneal guttata  
   identification of, 249
- Corneal nerve, and multiple endocrine neoplasia, 454
- Corneal storage  
   donor cornea contamination, 381  
   and irrigants, 402
- Corticosteroid therapy and herpes simplex virus, 17
- Corynebacterium* sp.  
   and blepharitis, 50  
   *C. striatus*  
     and keratitis, 81
- Coryneforms*, and *Corynebacterium striatus* keratitis, 81
- Curvalaria lunata*, and fungal keratitis, 272
- Curvature  
   and anterior-based wedge keratectomy, 127  
   and posterior-based wedge keratectomy, 127
- Cyclophosphamide  
   and peripheral ulcerative keratitis, 75
- Cyclophosphamine  
   and cicatricial pemphigoid, 185
- Cytology  
   brush  
     detects mast cells and eosinophils in  
       conjunctiva, 525  
   impression  
     and cytomegalovirus retinitis in patients with  
       AIDS, 511  
     in Sjogren's syndrome, 203
- Cytomegalovirus retinitis in patients with AIDS, 511
- Cytoskeleton  
   intermediate filaments during wound healing, 110  
   microfilaments during wound healing, 110  
   microtubules during wound healing, 110
- Dacryoadenitis, as initial presentation of  
   Wegener's granulomatosis, 542
- Dapsone, *See* Diaminodiphenylsulfone
- Degeneration, corneal, and lipid keratopathy, 167
- Desmosome junction, and *Acanthamoeba castellanii* keratitis, 291
- Dexamethasone, 17
- Diabetic corneal epitheliopathy, 156
- Diaminodiphenylsulfone and cicatricial pemphigoid, 185
- Diphtheroid, and *Corynebacterium striatus* keratitis, 81
- DNA, complementary  
   cDNA library preparation, 322  
   wound-specific, 322
- Drugs  
   psychotropic, and corneal edema, 354  
   topical delivery enhanced by punctal occlusion, 516
- Dystrophy  
   and consanguinity, 13  
   endothelial  
     congenital hereditary, 13  
     Fuch's, 13, 346, 368  
   granular, 13  
   keratoconus, 2  
   lattice, 13  
   macular, 13  
   posterior polymorphous, specular microscopic study, 224

- Edema, corneal
